**COVID HAS COME BACK. HERE ARE SOME TOOLS
TOOLS THAT YOU CAN USE TO PROTECT YOURSELF.!**

**VENTURA COUNTY
RECOVERS**

[CORONAVIRUS INFORMATION](#) | [EN ESPAÑOL](#) | [HILL AND WOOLSEY F](#)

We have the tools to fight this COVID-19 surge

- Get **vaccinated** and **boosted**
- Stay home** when you are sick
- Wear a **mask**
- Get tested** when you have symptoms or have been exposed
- Consider **temporarily pausing** on attending unnecessary indoor events

www.vcrecovers.org

Testing is currently recommended if:

You have COVID-19 symptoms: Talk to a doctor and get tested – even if you are fully vaccinated or have had COVID-19 in the past.

It has been 5-7 days after a gathering, travel, or exposure to COVID-19 (New [CDPH guidance](#) as of October 29, 2021) You should also wear a mask in public for 14 days following exposure or until your test result is negative.

You are part of an outbreak investigation. If you live or work in a place where other people have been diagnosed with COVID-19, you may need to be tested, even if you are fully vaccinated or had COVID-19 in the past.

Testing alone will not stop the spread of COVID-19. The best way to lower your risk of getting COVID-19 is to get the COVID-19 vaccine and to continue practicing everyday prevention. This includes wearing a mask that covers both your nose and mouth, and staying home when you are sick.

**STATE OF CALIFORNIA
COVID-19 PCR TESTING SITES**

Register by calling 888-634-1123 or
by visiting www.lhi.care/covidtesting

**You can order home covid test kits online .
Only takes a minute.**

They will ask for your name, an email, and a shipping address. That's It. Go to:

NATIONAL DAYS

ZOOMS ARE STILL ON! This month it is 2ND & 3RD FRIDAYS @ NOON

RESIDENT BOWL PAINTING WORKSHOPS ARE COMING BACK IN FEBRUARY FOR :

Mr. C.....has some interesting suggestions to handle cleaning in your apartment.

Have you ever heard that there are just two things a person needs to fix something or clean something — **Duct Tape** and **WD-40**. If it moves and shouldn't, use duct tape. If it doesn't move and should, use **WD-40**. Those wise words are pretty sure to do the trick, but just like there are tons of additional uses for **duct tape**, there are plenty of items that **WD-40** can be used on, that you've probably never thought to try using it on. Duct tape can help you repair or fix many things, but for now, we will only show some uses for **WD-40**.

FOR EXAMPLE:

- Have you ever taped something by accident to a table or an object in your apartment and when trying to remove the tape, the adhesive stays on the surface? Well, **WD-40** will help rid you of that leftover substance. Just spray and wipe it off (some elbow grease may be required).
- Not many things are as satisfying as a smooth cutting scissors. However, scissors can get dull and dirty and begin to stick together. Use your trusty **WD-40** to clean those blades out and keep those cuts sharp and smooth.
- Depending on the water in our community, your toilet can get those hard-to-clean streaks and stains on the bowl. But thanks to **WD-40**, you can spray those down and clean off those hard-water stains, as well as add a protective layer to keep them from building up so fast.
- If you're looking to add a little boost to your air conditioner's filtering power, **WD-40** will do the trick. Spraying the filter gives it extra stickiness that will catch more particles of dirt and dust. "Breathe cleaner with **WD-40!**". (Just remember to check it.)
- Mildew in a refrigerator can be a gross *and* pesky problem. You may think you've got it taken care of, but it keeps coming back month after month. However, **WD-40** is said to help protect against mildew growth. Just spray the area and wipe it down. The oil should help keep the mildew away.
- Water stains in the bathroom can be a ghastly thing to behold every time you get into the shower, and regular washing either doesn't do the trick or you must scrub and scrub. But by using **WD-40**, you can remove those stains far easier than regular soap and water. Just spray & wipe off.
- Tea has so many healthy benefits for humans that we all should be drinking it, but it unfortunately tends to stain surfaces almost as easy as coffee cups do. If you have dark rings on your countertops or other places, that just won't come off with soap and water, give **WD-40** a try.

That's all for now, just a few ideas to get you thinking.

**RESIDENT
SPOTLIGHT**

**MISTY T. FROM
PEPPERTREE**

“Prior to being at Many Mansions I was chronically homeless. Unfortunately due to me being homeless I chose to place my second child for an open adoption. That really destroyed me. Many Mansions gave me an opportunity at a brand new start. Through Many Mansions I have a 2 bedroom apartment with my youngest son and we have two cats. I work as a dental assistant; and we're enjoying life as it comes. My youngest son has met his younger brother and I'm able to continue an amazing relationship with both him and the family. Many Mansions has really helped me and my kids with the #1 thing we've been missing, and that's stability. I also have an 8 year old in Oregon who's visited and will visit again soon. He will also thrive knowing that mommy is in a stable place; and I'm able to start rebuilding our relationship. Through being stable I'm able to focus more on my family and enjoy every happy moment that comes my way. I literally thank God for Many Mansions every night. (And I'm not exaggerating) I haven't been in a stable environment like this since I was a child... and I'm 28 so that says a lot. I'm so grateful for this program, it really has saved my life.
